Re: Freedom of Information Act (FOIA) Request No. 10-RIN-76-87

Dear Mr. Zillich:

Thank you for your patience with regard to your request for information dated February 20, 1987. EPA contract dollars for this work are administered from our national office and we had to request the information from them. The estimated amount of dollars expended by EPA and its contractors is presented below.

The EPA Financial Management System indicates that as of September 24, 1987, the following costs have been incurred by EPA:

Payroll	\$5,925
Indirect Costs	27,054
Travel and Incidental	1,240
Laboratory Costs (see below)	22,112
Total	\$56,331

To the best of my knowledge, this represents EPA costs with the exception of laboratory costs prior to 1986. Lori Cohen of my staff is trying to locate that information and we will provide it to you as soon as possible.

In addition, EPA's Field Investigation Team has incurred costs of approximately \$303,600.00; therefore, the total amount expended to date by EPA and its contractors at the Resource Recovery Pasco Sanitary Landfill site is approximately \$360,000.00.

This is an interim response to FOIA request # 10-RIN-76-87.

Sincerely,

Philip G. Millam, Chief
Superfund Branch
